

# CORTADO

The Business Class of Mobile Services

## Case Study: EUROVIA Services GmbH

- **Task:** Implementing a document exchange platform for internal employees and subcontractors. Everyone involved on a project should have access to relevant documents.
- **Solution using Cortado SharePoint Hosting:** Plans and documents are centrally stored and managed, access rights are set individually.
- **Benefits:** Lower administrative overheads and improved communication between project participants, thereby increasing both productivity and response times.
- **Quote:** “Thanks to Cortado SharePoint Hosting a ‘single information point’ could be created, providing a consistent and central information gathering center - regardless of the contact media selected by the customer.” “In this information pool, internal and external project stakeholder information is brought together, and can then be further processed by relevant and authorized employees.” *Rüdiger Jegotka / André Nickel, IT Department*

**Industry:** Transport infrastructure and construction
