

User Example: Burnaby Lake Greenhouses

- **Task:** Executive management (EM) needs to review, create and print e-mails without a laptop. Mobile sales force and buyers need hard copies of documents.
- **Solution with Cortado Corporate Server:** EM can print and email while mobile, freeing up the administrative staff that previously did this. Mobile workforce can print large documents and fill them out on the spot.
- **Value:** Convenient, saves time with increased productivity; users do not have to take laptop with them nor do they need a PC at home to print attachments. Administrators are free to do other tasks. Overall cost savings.
- **Quote:** *"I love that I can print from my BlackBerry. I haven't turned my laptop on since the Cortado Client was installed on my BlackBerry,"* Ryan Van der Ende, Burnaby Lake Greenhouses Ltd.
