

## User Example: Wiebe

- **Task:** Real time access to route plans and route plan changes from engines servicing track works
- **Solution with Cortado Corporate Server:** PushPrint and mobile printers as data based fax service enable print outs any time directly in 30 engines
- **Value:** Slow and cost intensive fax solution was replaced by reliable printing directly in the drivers cab, planning for track works can now always be optimized according to current daily business, enhanced security for track workers, less back office activities
- **Quote:** *“Before faxes were handed over at certain handover points. Today thanks to BlackBerry and Cortado we can print the current plans any time directly in the drivers cab.”*  
Patrick Zitz, BLP Wiebe Logistik GmbH

**Industry:** Logistics  
**Carrier:** T-Mobile  
**Partner:** Lineas  
**Platform:**  
*BlackBerry / Lotus Notes*
