

ThinPrint End User License Agreement (EULA)

"Cortado Corporate Server"

Important!

Please read the following ThinPrint End User License Agreement as well as the license conditions for "Microsoft Active Directory Application Mode Service Pack 1", "Microsoft .NET Framework 2.0", and "OpenOffice.org" as enclosed in Appendix A-C (hereinafter jointly referred to as "**EULA**") carefully before installation and/or use of the Software "Cortado Corporate Server", its possibly integrated add-on programs and any media, material, online or electronic documentation (hereinafter jointly referred to as "**Software**").

Upon installation, copying or any other use of the Software you declare your consent with the conditions of the EULA and agree to comply with them.

If you install the Software as an administrator or other member of staff of a company entitled to installations and/or if you make the Software available to users after installation, you also declare your consent with the conditions of the EULA and agree to comply with them.

If you, however, do not agree with the conditions of the EULA, you are not entitled to install, make available and/or use the Software.

1. General terms

The EULA constitutes a valid contract between ThinPrint GmbH, Alt-Moabit 91a/b, 10559 Berlin, Germany (hereinafter referred to as "**ThinPrint**") and a legal or natural person who themselves or their staff install and use the Software (hereinafter referred to as "**End User**") exclusively defining all rights and duties of the End User and ThinPrint in regard to the Software.

2. Definitions

- (1) "**Device**" means any hardware operating system unit including both real and virtual units.
- (2) "**Server**" means any devices which primarily provide services and functions/applications for other devices.
- (3) "**End Device**" means any devices which primarily request services and functions/applications from a Server.
- (4) "**Cluster**" means a group of independent Servers which outwards appear as a single Server and work jointly to balance the workload for networked End Devices and Server applications onto several Servers and to increase the availability of applications and Services. Upon increase of the workload Clusters can be scaled by adding additional Servers. Cluster servers are referred to as hosts or nodes and are connected physically and by software. Upon failure of one node, the remaining nodes cover the function of the failed node.
- (5) "**Named User**" means a defined individual (physical Named User) using the Software. Processes which are initiated mechanical-automatically and not by an individual (logical Named User) are counted as Named User if such processes use or access the Software. If several physical Named Users access the Software via one logical Named User, the number of physical Name Users is decisive for the overall number of required Named User licenses. A single Named User licenses may not be deployed concurrently on several Devices. Sharing of a single Named User license between more than one physical and/or logical Named User is expressly prohibited. A single Named User license may only be transferred onto another Named User, if the original Named User does not and cannot use the Software anymore. The license key to a single Named User license may only be installed and activated on one Server. Clusters are an exception to this rule (see sect. 6.3 and 6.4).

3. Rights of use

- 3.1 Within the framework of the EULA, ThinPrint grants End User the non-transferable, revocable, regionally limited and non-exclusive right to install and use the Software and its possibly integrated add-on programs according to the technical documentation provided with the Software. The Software may be used and installed on an End Device, Server or a Server farm in accordance with the number of licenses included with the Software. **The criteria described in this EULA for the correct licensing (number and type of required licenses) remain applicable and decisive, even if the technical license verification of the Software permits a different number and/or type of licenses. The stipulations of this EULA are exclusively relevant.** End User is entitled to make a copy of this Software in accordance with the EULA after the installation or – instead of the copy – to create an image of the End Device or Server on which the Software has been installed. Such copy or image may only be used and stored for archiving and reinstallation purposes of the Software on the same End Device, Server or Server farm without the requirement of additional licensing. Additional copies and/or images require additional licensing of the Software according to this EULA. All trademarks and copyrights and any other legal notes relating to the rights of ThinPrint must be included and remain in such copy or image.
- 3.2 End User is not entitled to make additional partial or complete copies or images of the Software and its add-on programs other than permitted under section 3.1, to copy in any way, to translate or to dismantle parts of the Software, to change the arrangement or to make any other changes and/or amendments or to make copies of such changes. End User is not allowed other than in the legally permitted boundaries to reverse engineer, to decompile or to disassemble the Software.

End User is not entitled to distort the contents of the Software, to change its color, pattern and fonts or to split or in any other way alter the elements of the logo, copyright and trademark details.

- 3.3 End User is not entitled to cede, sublicense, sell or in any other way assign the rights and duties granted to him under the EULA.
- 3.4 If End User receives the Software on more than one storage system, End User is only entitled to install and use the Software contained on one of the mediums only. It is generally prohibited to install and use the Software contained on the second medium on another End Device, Server or Server farm. The Restrictions in 3.2 and 3.3 remain applicable.
- 3.5 If the Software is an Update of a previous version and if End User has purchased the Update as part of an Update Service, End User is only entitled to install and use the Update, if he/she is in possession of a valid license for the previous version marked compatible for Update by ThinPrint. End User must be aware that the Update replaces the previous version and/or its supplements and may deactivate it.
- 3.6 If the Software has been marked "NFR" (Not For Resale), the use of the Software is limited to demo, test or evaluation purposes only. Any further use is prohibited. End User is especially not entitled to resell the Software or make it available for third parties in any other way.
- 3.7 Any other rights of ThinPrint not explicitly asserted above remain unaffected.

4. Transmission of the Software onto 2nd Computer, Disclosure to Third Parties

- 4.1 The Software itself may at no time be sold, loaned, rented or made available in any other way to Third Parties.
- 4.2 End User is only entitled to install the Software on a second computer, server or server farm, if the Software, after its transmission onto the second computer, server or server farm has been completely and permanently removed and/or cancelled from the first computer, server or server farm. Upon installation of the Software onto the second computer, server or server farm, all other parts of the Software, including but not limited to its add-on programs, descriptions, media and other printed materials, also must be transferred. All persons having access to the second computer, server or server farm and therefore to the Software must be sufficiently informed of the contents and the individual conditions of the EULA.

5. Licensing

- 5.1 Licenses for the Software, including demo licenses for the Software, are initially valid for 30 days. In general, all licenses for the Software are valid exceeding the 30-day-period only upon final activation by ThinPrint. ThinPrint may refuse activation, if the matching license key does not entitle to the use of the Software as installed. Notwithstanding the above to the contrary, demo licenses cannot be used or activated beyond the 30-day-period. Corporate Licenses constitute another exception to the general rule of activation as they require a duly executed separate Corporate License Agreement in which End User is the designated licensee prior to activation by ThinPrint.
- 5.2 Valid license keys entitle End User to use the Software in the current version at the time of purchase.
- 5.3 By accepting the EULA, End User agrees to complete all details necessary for the activation process truthfully and completely.

6. Software Components

The Software "Cortado Corporate Server" provides services or functions on a Server. The Software" may be installed on any Server. Each Server on which the Software is installed must have at least one valid license for the Software. After installation and configuration of the Software, the client software must be installed on End Device.

7. Intellectual Properties, Trademarks and Copyrights of the Software

The Software, its entire contents (including but not limited to pictures, photos, animations, video, audio, music, text and "Applets"), any contents accessible through the Software, and copies thereof are protected by any and all available national and international copyrights, commercial protection rights, especially patent rights, utility patent, design patent and trade rights and all other existing protection rights of the Software, its improvements, bug fixes and extensions or any other modifications to the Software, regardless of their origin. By accepting the EULA, End User is obliged to use and observe all of the aforementioned rights regarding the Software which ThinPrint or Third Parties are entitled to as stipulated and defined in the EULA and not to infringe or violate such rights including in particular that no content must be copied or in any other way multiplied, stored, sold or passed on in any way, nor – apart from the Software itself (compare section 3 above) – be used. End User is entitled to print a documentation of the Software, if the documentation is only provided in electronic format. End User may multiple copies of all printed materials accompanying the Software for internal use.

8. Warranty

- 8.1 The Software only has to perform those functions mentioned and described in the manual without error.
- 8.2 The General Terms and Conditions of ThinPrint remain applicable.

9. Liability

- 9.1 ThinPrint tests the Software and validates its general suitability. If damages occur to End User during the installation or use of the Software, ThinPrint is liable completely and to twice the value of the purchase price of said Software, but not exceeding in any case a total sum of EUR 50,000, if said damages are directly caused by improper and/or incomplete testing or improper or incomplete test of suitability. Liability for slight negligence of ThinPrint is limited to damages that have been foreseeable or should have been foreseeable. ThinPrint assumes no liability for indirect or atypical damages (consequential or otherwise) or for any financial losses such as loss of profits or savings caused by slight negligence. This limitation of liability does not apply in cases of bodily injury, impairment of health, death and infringement of cardinal contractual obligations.
- 9.2 If End User does not make any adequate (at least daily), reasonable and common to the current state-of-the-art backup of his data in the interest of data security, or – in case of suspected Software errors – fails to take reasonable and adequate security measures, End User has to accept contributory negligence regarding resulting damages.
- 9.3 ThinPrint is only liable for damages arising to End User within the context of or due to the Software download process from the ThinPrint website or during the installation process. ThinPrint specifically does not guarantee freedom from computer viruses, so that ThinPrint can not be held liable for any damage arising from computer viruses. In fact, End User is specifically obliged to use sufficient and always up-to-date protection against computer viruses and to actively prevent infiltration by computer viruses, in particular before End User starts downloading the Software.
- 9.4 ThinPrint assumes no liability for the information and the Software “Cortado Corporate Server” regarding defects of quality or title, particularly for the accuracy, correctness, freedom of third-party trademark rights and copyrights, completeness and/or usability, except for cases of gross negligence or malice traceable to ThinPrint.
- 9.5 The product liability of ThinPrint remains unaffected.

10. Forfeiture

If End User or his employees and/or representatives violate any rights and/or obligations arising from the EULA, especially rights of use, ThinPrint is entitled to request End User to immediately abandon the use of the Software and its copies and to delete or return the Software and its copies to ThinPrint. ThinPrint reserves any rights to claim for damages.

11. Transfer of Rights

End User may not assign or transfer the EULA and the rights and obligations arising hereof to a third party without previous written permission of ThinPrint, unless End User and the third party are in a state of dependence as defined in § 17 of the German Stock Companies Act (AktG) or the third party takes over all or almost all assets of the End User by written contract. The permission as defined in sentence 1 may be denied given significant causes. Significant cause is particularly given, if the fulfillment of rights and obligations under the EULA are endangered due to such transfer.

12. Scope of the EULA

The EULA exclusively stipulates all rights of use of the Software as well as any other right and/or obligation of End User and ThinPrint, as long as deviant written agreements and conditions individually agreed between the Parties do not exist. The EULA supersedes any and all previous oral or written agreements, information or offers concerning the Software.

13. Place of Jurisdiction/Applicable Law

The EULA and its implementation shall be construed and interpreted in accordance with German Law. Any terms of the CISG (United Nations Convention on Contracts for the International Sale of Goods) are applicable, if and insofar as they include mandatory law. If End User is an entrepreneur as defined in § 14 BGB (German Civil Code), the courts at ThinPrint’s headquarter in Berlin, Germany shall have the sole jurisdiction to hear any disputes arising from or in connection with this EULA. If End User is a consumer as defined in § 13 BGB, the courts at End User’s residence shall have the sole jurisdiction according to § 13 ZPO (German Code of Civil Procedure).

14. Severability Clause

If any one or more of the provisions contained in the EULA shall, for any reason, be, become or be held invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect the remaining provisions of the EULA, but the EULA shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein, unless the deletion of such provision or provisions would result in such a material change so as to cause completion of the transactions completed herein to be unreasonable. In lieu of such invalid, illegal or unenforceable provision shall be added a provision similar in terms to such provision as may be valid, legal and enforceable and suiting the Parties contractual interests best.

ThinPrint GmbH, 10559 Berlin

MICROSOFT SOFTWARE SUPPLEMENTAL LICENSE TERMS

MICROSOFT ACTIVE DIRECTORY APPLICATION MODE SERVICE PACK 1 FOR MICROSOFT WINDOWS SERVER 2003

Microsoft Corporation (or based on where you live, one of its affiliates) licenses this supplement to you. If you are licensed to use Microsoft Windows Server 2003 software (the "software"), you may use this supplement. You may not use it if you do not have a license for the software. You may use a copy of this supplement with each validly licensed copy of the software.

The following license terms describe additional use terms for this supplement. These terms and the license terms for the software apply to your use of the supplement. If there is a conflict, these supplemental license terms apply.

BY USING THIS SUPPLEMENT, YOU ACCEPT THESE TERMS. IF YOU DO NOT ACCEPT THEM, DO NOT USE THIS SUPPLEMENT.

If you comply with these license terms, you have the rights below.

1. **USE RIGHTS.** You may use the object code form of the supplement on your computers that are running licensed copies of (i) the software and (ii) Microsoft Windows XP Professional (subject to (a) and (b) below).

a. If you use the supplement on machines running Microsoft Windows XP Professional, you may only use the supplement on those computers for development purposes and/or to store data for applications running on the same computer to synchronize with data stored by the supplement on another computer running the software.

b. These license terms do not change any obligations you may have (if any) to purchase CALs for the software.

2. **DISTRIBUTABLE CODE.** You are permitted to distribute the supplement in programs you develop if you comply with the terms below.

a. **Right to Use and Distribute.** The code and text files listed below are "Distributable Code."

* Supplement. You may copy and distribute the object code form of the supplement.

* **Third Party Distribution.** You may permit distributors of your programs to copy and distribute the Distributable Code as part of those programs.

b. **Distribution Requirements.** For any Distributable Code you distribute, you must

* add significant primary functionality to it in your programs;

* require distributors and external end users to agree to terms that protect it at least as much as this agreement;

* display your valid copyright notice on your programs; and

* indemnify, defend, and hold harmless Microsoft from any claims, including attorneys' fees, related to the distribution or use of your programs.

c. **Distribution Restrictions.** You may not

* alter any copyright, trademark or patent notice in the Distributable Code;

* use Microsoft's trademarks in your programs' names or in a way that suggests your programs come from or are endorsed by Microsoft;

* distribute Distributable Code to run on a platform other than the Windows platform;

* permit further distribution of the Distributable Code by your end-users;

* include Distributable Code in malicious, deceptive or unlawful programs; or

* modify or distribute the source code of any Distributable Code so that any part of it becomes subject to an Excluded License. An Excluded License is one that requires, as a condition of use, modification or distribution, that

* the code be disclosed or distributed in source code form; or

* others have the right to modify it.

3. **SUPPORT SERVICES FOR SUPPLEMENT.** Microsoft provides support services for this software as described at www.support.microsoft.com/common/international.aspx.

Appendix B

MICROSOFT SOFTWARE SUPPLEMENTAL LICENSE TERMS

MICROSOFT .NET FRAMEWORK 2.0

Microsoft Corporation (or based on where you live, one of its affiliates) licenses this supplement to you. If you are licensed to use Microsoft Windows operating system software (the "software"), you may use this supplement. You may not use it if you do not have a license for the software. You may use a copy of this supplement with each validly licensed copy of the software.

The following license terms describe additional use terms for this supplement. These terms and the license terms for the software apply to your use of this supplement. If there is a conflict, these supplemental license terms apply.

By using this supplement, you accept these terms. If you do not accept them, do not use this supplement. If you comply with these license terms, you have the rights below.

1. SUPPORT SERVICES FOR SUPPLEMENT. Microsoft provides support services for this supplement as described at www.support.microsoft.com/common/international.aspx.

2. MICROSOFT .NET FRAMEWORK BENCHMARK TESTING. This supplement includes the .NET Framework component of the Windows operating systems ("NET Component"). You may conduct internal benchmark testing of the .NET Component. You may disclose the results of any benchmark test of the .NET Component, provided that you comply with the following terms: (1) you must disclose all the information necessary for replication of the tests, including complete and accurate details of your benchmark testing methodology, the test scripts/cases, tuning parameters applied, hardware and software platforms tested, the name and version number of any third party testing tool used to conduct the testing, and complete source code for the benchmark suite/harness that is developed by or for you and used to test both the .NET Component and the competing implementation(s); (2) you must disclose the date (s) that you conducted the benchmark tests, along with specific version information for all Microsoft software products tested, including the .NET Component; (3) your benchmark testing was performed using all performance tuning and best practice guidance set forth in the product documentation and/or on Microsoft's support web sites, and uses the latest updates, patches and fixes available for the .NET Component and the relevant Microsoft operating system; (4) it shall be sufficient if you make the disclosures provided for above at a publicly available location such as a website, so long as every public disclosure of the results of your benchmark test expressly identifies the public site containing all required disclosures; and (5) nothing in this provision shall be deemed to waive any other right that you may have to conduct benchmark testing. The foregoing obligations shall not apply to your disclosure of the results of any customized benchmark test of the .NET Component, whereby such disclosure is made under confidentiality in conjunction with a bid request by a prospective customer, such customer's application(s) are specifically tested and the results are only disclosed to such specific customer. Notwithstanding any other agreement you may have with Microsoft, if you disclose such benchmark test results, Microsoft shall have the right to disclose the results of benchmark tests it conducts of your products that compete with the .NET Component, provided it complies with the same conditions above.
