## Company Fact Sheet

### » About Cortado

Cortado has successfully joined some of the most highly skilled experts in the mobility business. As an independent division of ThinPrint, the world's largest and most successful company for software-based print solutions, Cortado offers one-stop mobile business software solutions and professional hosting services for all of today's mobile demands. With this extensive background, Cortado has quickly built an international presence with offices in the USA and Australia and operates globally. Cortado is a Microsoft Gold Certified Partner and Nokia Forum Pro member, and one of the top five BlackBerry Alliance Members. Having established close alliances with over 20 carriers worldwide, including Verizon Wireless, T-Mobile, AT&T, Vodafone and Telefonica, Cortado is a reliable, professional partner and service provider to meet the demands of mobile businesses and as well as private users.

### » Products and Services

Cortado offers a wide range of solutions and services, ranging from the Cortado Online Services to the Cortado Enterprise Solutions. Pairing proven technology along with the most cutting edge features of mobility has created an unprecedented solution to maximize convenience as well as productivity. Cortado Online Services offer Exchange-based e-mail packages for BlackBerry, Nokia or Windows Mobile device users as well as Premium Services such as faxing and printing for customers with existing e-mail solutions. Online Services are designed for individual users as well as small businesses. Cortado Enterprise Solutions include Cortado Explorer to access and manage files and network resources, including copy, cut and paste, and Bluetooth or network printing and faxing. Cortado Enterprise Solutions are designed for SMB customers with advanced needs as well as for corporations deploying thousands of smartphones.

### » Notables

The Cortado product family includes cutting edge solutions that allow smartphone users, such as BlackBerry, Windows Mobile and Nokia users, to increase the amount of tasks completed with the help of a mobile device only to 90 % compared to 60 % without Cortado. Cortado also gives users the added freedom to work in any area covered by a cell phone network. This complete mobile solution enables users to access documents stored on corporate servers, online storage or e-mails in order to view, print, fax or present these, all from their smartphone, with no standard PC necessary.

### » Philosophy

We believe that mobility is one of the key features that will make business successful, now as well as in the future. Allowing a user to work at almost any place and any time does not only greatly increase an employee's productivity but also adds to his quality of life. Employees are no longer tied to their office and desks while companies do not have to provide expensive equipment to ensure productivity.
