

Press Release

Now Available: Cortado Corporate Server 4.0 for BlackBerry

Cortado enhances BlackBerry smartphones with even more 'classic' PC functions

(Berlin, May 5, 2009) With the new 4.0 version of its enterprise application [Cortado Corporate Server](http://www.cortado.com/enterprise), the mobile business expert, Cortado, offers BlackBerry® smartphone users and BlackBerry Enterprise Server customers the ability to manage files on a corporate network, print documents, and send faxes. The new version presents first-class features including the "Scan & Copy", "PDF Creator", and "Instant Database Access" functions and completely re-engineered mobile print technology. A free trial of the new version is available at: www.cortado.com/enterprise

The new function "Scan & Copy" turns a BlackBerry smartphone's camera into a mobile scanner. It lets users scan documents and print them with a Bluetooth® or network printer, fax them or simultaneously save them on the corporate network, ensuring that important information is backed up. Cortado Corporate Server 4.0 includes the first PDF creator for smartphones enabling users to create and send write-protected PDF files directly from a BlackBerry smartphone. Another option is the ability to retrieve reports from almost any database; the user can initiate, print, fax, or send reports by e-mail.

Having completely re-engineered its now patent pending mobile print technology, Cortado offers intelligent printer matching that ensures the appropriate printer driver is always used for printing, completely eliminating any administrative outlay.

"With the new version, we offer a new standard in mobility," says Thorsten Hesse, International Sales Manager at Cortado. "Faster workflows and turnaround times are key during the current financial crisis when companies need to keep costs down."

Cortado Corporate Server 4.0 is available for € 1630 or \$1995. The price covers 10 users and includes 12 months of Update Service & Support.

Further information and a free, fully functional demo version are available at www.cortado.com/enterprise.

This press release and press photo as well as a press kit are available for download under: www.cortado.com/press

Press Release

Cortado. A Division of ThinPrint

Cortado, as an independently acting division, combines the total mobile computing competence of ThinPrint AG and offers one-stop mobile business software solutions and professional hosting services for all of today's mobile demands. The services on offer encompass the entire range from Hosted Exchange and professional e-mail and PIM services with innovative push mail capability to the truly unique Cortado Enterprise Solutions and Premium Services, which turn your mobile device into a fully-fledged workstation. Cortado products, both in-house solutions and hosted premium services, allow you to manage documents and flexibly send them to all established mobile platforms. Security-certified hosting centers in Germany, the USA, and the Pacific region guarantee high availability and security for all hosted Cortado services. Along with its free-of-charge services under Cortado Free, Cortado offers mobile freedom and increases productivity for consumers, prosumers, and companies. Our goal is to provide complete mobility and independence from location-bound workplaces and computer-based communication methods. With the extensive experience of ThinPrint AG and its international presence with offices in the USA and Australia, Cortado operates globally. As a Microsoft Gold Certified Partner, Nokia Forum Pro member, and one of the top five BlackBerry Alliance Partners, as well as working closely with over 20 carriers worldwide, including T-Mobile, Vodafone, Telefonica, Orange, Hutchison 3G, Cingular and Verizon, Cortado is the competent and professional partner and service provider for meeting the demands of mobile business and private users. A global partner network supports the international availability of Cortado offerings.
