Mobile World Congress 2010

Cortado Workplace Launched to Offer BlackBerry Smartphone Users Cloud Printing and Storage Capabilities

(Berlin/Barcelona, February 15, 2010) Cortado, the experts in mobile business solutions, today announced its free mobile office solution for BlackBerry® smartphone users, Cortado Workplace. The Cortado Workplace solution allows BlackBerry smartphone users to store documents and files in the cloud and access them anytime and anywhere via the Cortado Workplace file manager application or the browser. The solution also includes printing, enabling users to print documents on any local or network printer.

Each user of Cortado Workplace will receive an individual password-protected 1GB of online storage and access to files via their BlackBerry smartphone, PC or laptop. For ease of use, the Cortado Workplace file manager application has the look and feel of Windows Explorer.

"Cloud computing is the hot buzzword at the moment and provides many benefits for businesses and end users. With our new application, BlackBerry smartphone users can access and manage their files as if they were on their desktop PC and even print them to any printer," says Dirk Loewenberg, Cortado Services Director. Cortado Workplace supports BlackBerry smartphones that run OS v4.2.1 and higher, including the BlackBerry® Curve(TM) , BlackBerry® Storm(TM), BlackBerry® Bold (TM) and BlackBerry® Tour(TM) series of smartphones.

Cortado Workplace is available at www.cortado.com/workplace.

Corporate customers who would like to use the cloud printing services in their own company network behind the firewall can do so with [Cortado Corporate Server](#) to build their own private cloud.

This press release and the press photo are available online at www.cortado.com/press.

###

Cortado. A Division of ThinPrint

Cortado, as an independently acting division, combines the total mobile computing competence of ThinPrint AG and offers one-stop mobile business software solutions and professional hosting services for all of today's mobile demands. The services on offer encompass the entire range from Hosted Exchange and professional e-mail and PIM services with innovative push mail capability to the truly unique Cortado Enterprise Solutions and Premium Services, which turn your mobile device into a fully-fledged workstation. Cortado products, both in-house solutions and hosted premium services, allow you to manage documents and flexibly send them to all established mobile platforms. Security-certified hosting centers in Germany, the USA, and the Pacific region guarantee high availability and security for all hosted Cortado services. Along with its free-of-charge services under Cortado Free, Cortado offers mobile freedom and increases productivity for consumers, prosumers, and companies. Our goal is to provide complete mobility and independence from location-bound workplaces and computer-based communication methods. With the extensive experience of ThinPrint AG and its international presence with offices in the USA and Australia, Cortado operates globally. As a Microsoft Gold Certified
