Cortado Mobile Solutions and Fairphone Announce Collaboration

(Berlin, May 7, 2024) - Cortado Mobile Solutions, a provider of mobile device management (MDM) solutions, announces its partnership with Fairphone, the manufacturer of fair and sustainable smartphones. As part of this collaboration, Cortado will now offer Fairphone devices as part of its rental offerings. This initiative underscores the commitment of both companies to sustainability and social responsibility in the technology industry.

Founded in 2013, Fairphone is truly setting new standards in the mobile phone industry by focusing on fair working conditions and the use of fair and recycled materials. The company's modular smartphones, such as the Fairphone 5, are designed to be easily repairable and durable. Users can easily replace essential components, including the display, cameras, and USB ports, with a screwdriver. This not only promotes cost-effective and eco-friendly repairs but also supports the goal of extending product lifespans and reducing electronic waste.

As a specialist in simple and secure mobile device management, Cortado also offers its customers the smartphones and tablets needed for projects for rent. If required, these devices can even be pre-configured and ready for immediate use. Additionally, Cortado also manages the lifecycle of rental devices for its customers. Through collaboration with Fairphone, Cortado has expanded its offering to include an environmentally sustainable option that reflects the company's philosophy of using technology responsibly. Cortado customers now have the opportunity to reduce their environmental footprint by renting Fairphone devices while also benefiting from cutting-edge mobile technology. This collaboration is another step towards a more environmentally conscious and fairer workplace.

"Rental devices are usually in operation for a longer period than purchased devices. An approach that aligns with our sustainability philosophy," says Michael Rödiger, CEO of Cortado Mobile Solutions GmbH. "Collaborating with Fairphone is a logical continuation of our efforts towards eco-friendly business practices."

Fairphone devices are now available at Cortado Mobile Solutions. Use our contact form: <https://www.cortado.com/en/contact/>
