

## SKOK ARKA

- **Challenge:** Employees from various departments need access to their files from their mobile devices and want to print them even when mobile – especially when visiting the various branch offices.
- **Solution:** Cortado Corporate Server allowed the company not only to integrate the iPads, iPhones, Android and BlackBerry smartphones into the company IT securely, but it also made it possible for SKOK ARKA employees to work productively.
- **Result:** Employees now have access to necessary documents and print them as needed while mobile too. Tasks in the company are completed far faster this way.
- **Quote:** *“Cortado Corporate Server allows us to work more efficiently. This solution not only helps us to manage a diverse fleet of mobile devices – tablets and smartphones – but also ensures secure access to files, documents and database reports. This has a positive impact on productivity and mobility. Basic MDM, without access to corporate resources would not have helped us.” Dariusz Stachera, IT Manager, SKOK ARKA*

**Branch:**  
Banking

**Solution:**  
Cortado Corporate Server

**Hardware:** iPads, iPhones,  
Android and BlackBerry  
smartphones
