

International Supplier*

Highest security and control for company data

- **Mission:** International Supplier is a multinational company in the automotive supplier industry. They were looking for a solution that manages Android devices simply while at the same time providing employees with protected mobile access to corporate data.
- **Solution:** With Cortado Corporate Server, the employees' smartphones and tablets can be integrated into the company's IT without difficulty. The complete solution provides maximum data protection and immediate security measures for theft or loss.
- **Testimonial:** „Data security has top priority for us. If an employee loses his device and an administrator cannot be reached immediately, Cortado provides the option through the self-service portal to immediately locate the device and delete the data with Remote Wipe. Mobile access to our company data has never been so secure.“ *System administrator, International Supplier*
