

## Uganda Revenue Authority

- **Challenge:** Managers of the Uganda Revenue Authority travel across the country controlling tax offices. When on the road they require access to documents, they want to print to printers in the offices they visit and they need to send faxes.
- **Solution:** With Cortado Corporate Server thirty employees access documents on the corporate network via their BlackBerry smartphones and have the ability to print, fax, and to save documents centrally.
- **Result:** Employees can use their working time much more effectively. Collaboration is made easier.
